COMPLAINT

Plaintiff Accurate Backflow and Plumbing Services, Inc. and Plaintiff Homestead Heating & Plumbing, LLC (collectively “Plaintiffs”), bring this class action for injunctive relief against Viega LLC (“Viega” or “Defendant”) on behalf of themselves and a Class (defined below) of all other similarly situated indirect purchasers under Rule 23 of the Federal Rules of Civil Procedure, Sections One and Two of the Sherman Act (15 U.S.C. §§ 1, 2) and Section Sixteen of the Clayton Act (15 U.S.C. § 26), as well as for damages pursuant to state antitrust laws allowing indirect-purchaser remedies under this Court’s supplemental jurisdiction.

All allegations herein other than those relating directly to Plaintiffs are based on information and belief.

I. NATURE OF THE ACTION

1. Viega, a privately-owned company that manufactures, imports, and sells plumbing fittings in the United States, has possessed, and continues to possess, monopoly power in the market for carbon steel press fittings and copper press fittings.

2. Viega’s carbon steel press fittings were the first to market and, until July 2017, the only carbon steel press fittings approved in the United States. Viega controls at least 95% of the carbon steel press fittings market and approximately 71% of the copper press fittings market in the United States. Viega’s most significant competitor in the copper press fittings market, NIBCO Inc. (“NIBCO”), on average, prices its copper press fittings lower than Viega’s prices for copper press fittings – sometimes as much as 15% less than Viega’s. At the time NIBCO filed its lost-profit claims in the U.S. District Court for the Middle District of Pennsylvania before Chief Judge Christopher C. Conner in *NIBCO Inc. v. Viega LLC*, No. 17-1739 (Sept. 26, 2017), it had 17% of the copper press fitting market share.

3. Fittings are essential components of pipeline systems that are used to join pipes or tubes in straight lines or change, divide, or otherwise direct the flow of media, including potable water, process water, oil, gases, and fuel. “Press fittings” are different than other connectors and provide a faster, safer, and more reliable method of joining fittings and pipe without compromising the quality of installation.

4. Such fittings are produced in varying configurations, sizes and surface coating which is dictated by the raw material and purpose of the pipeline system. Black iron pipe is used, for example, to transport fuel oil and natural gas, but is never used to transport medical oxygen. Copper, on the other hand, is typically used for plumbing, heating and cooling systems.

5. Fittings manufacturers, such as NIBCO and Viega, sell fittings almost entirely through wholesale distributors. The wholesale distributors, in turn, sell fittings to contractors, developers, and other end users.

6. In a concerted and continuous effort to enhance and maintain its dominant position in the copper press fittings market, Viega has engaged in anticompetitive and exclusionary conduct to undercut NIBCO’s and other Viega competitors’ efforts to compete in the relevant market and to maintain and expand their customer bases.

7. By refusing to sell its carbon steel press fittings unless a wholesale distributor purchases only Viega’s copper press fittings, Viega has leveraged its market power in the carbon steel press fittings market to force wholesale distributors not to buy copper press fittings from NIBCO and other Viega competitors.

8. Viega further coerces wholesale distributors not to purchase copper press fittings from NIBCO and other Viega competitors by withholding discounts, rebates, and other pricing concessions for its carbon steel press fittings. By imposing such a pricing penalty, Viega

guarantees that the purchase of both Viega's copper press fittings and its carbon steel press fittings is the only economically viable option.

9. By using its monopoly power – not a better product or lower price - in the carbon steel press fittings market, Viega's systematic conduct has denied NIBCO and other competitors unencumbered access to the relevant market for copper press fittings and significantly prejudiced competition in the relevant market. As a result, wholesale distributors and end users are forced to pay higher prices.

10. By its continuing abuse of its monopoly power and by preventing, delaying, excluding, or otherwise restraining or suppressing competition in the relevant market, Viega has maintained and stabilized artificially inflated prices for wholesalers and end users, extended or maintained its market power, and fortified technological barriers to entry in the copper press fittings market.

II. THE PARTIES

11. Plaintiff Accurate Backflow and Plumbing Services, Inc., has been licensed in the State of North Carolina since 2008 and is headquartered in Apex, North Carolina. During the relevant time period, Plaintiff made purchases of Viega copper press fittings from one or more Viega wholesale distributors.

12. Plaintiff Homestead Heating & Plumbing LLC., has been licensed in the State of Vermont since 2006 and is headquartered in Brattleboro, Vermont. During the relevant time period, Plaintiff made purchases of Viega copper press fittings from one or more Viega wholesale distributors.

13. Defendant Viega manufactures and distributes plumbing, heating, and pipe joining systems for industrial, commercial, and residential projects. Viega is a limited liability company

organized under the laws of the State of Delaware with its U.S. headquarters located at 12303 Airport Way, Suite 395, Broomfield, Colorado 80021 and a distribution center in Harrisburg, Pennsylvania. Viega acts as an agent for its parent corporation Viega GmbH & Co. KG, which is located in Atterndorn, Germany, through distributing Viega copper press fittings and carbon steel press fittings in North Carolina and Vermont, among other states, including those purchased by Plaintiffs.

III. JURISDICTION AND VENUE

14. Plaintiffs bring this lawsuit for injunctive relief pursuant to Section 16 of the Clayton Act, 15 U.S.C. § 26, and 28 U.S.C. § 1337(a).

15. This Court has federal question jurisdiction over this matter pursuant to 28 U.S.C. § 1331 because the causes of action asserted in this complaint arise under the laws of the United States. This Court has supplemental jurisdiction over the causes of action asserted under state law pursuant to 28 U.S.C. § 1367 because the state law causes of action are so related to the causes of action within the Court's federal question jurisdiction that the state law causes of action form part of the same case or controversy.

16. Defendant is subject to personal jurisdiction in this District pursuant to Section 12 of the Clayton Act, 15 U.S.C. § 22, because it transacts business in this District, including through its distribution center in Harrisburg, Pennsylvania.

17. Venue is proper in this District pursuant to 28 U.S.C. § 1391 (b)-(d) and 15 U.S.C. §§ 15 and 22 because Defendant resides, is doing business in, has and had agents in, and is found to transact business in this District.

IV. BACKGROUND

A. Copper Press Fittings

18. Copper pipe is contractors' leading choice for plumbing, heating, and cooling applications. Copper pipe can be used for potable water service and distribution, industrial process water, air conditioning and refrigeration field service, compressed medical air, medical gas, drain/waste/vent applications, and HVAC applications. The type of copper pipe to be used in a particular application is governed by plumbing and mechanical codes.

19. Press technology refers to the use of hydraulic power tools and jaws to press or crimp a joint to create a permanent seal between the fitting and pipe. The joints rely on the sealing capability of a special fitting that contains an elastomeric gasket or seal (such as EPDM). Press technology takes advantage of copper's excellent malleability and its increase in strength when cold worked.

20. An advantage of using copper press fittings is that plumbers are able to complete projects with less time, budget and manpower than they can with traditional methods. All that is required to install a copper press fitting is removing burrs from the outer and inner diameter of the pipe, sliding the fitting onto the pipe to minimum insertion depth, and pulling the trigger on a power tool. Installation can be completed in three to 30 seconds depending on the joint size. Moreover, the tools are lightweight, battery powered, and easy to handle, which allows installers to remain mobile.

21. Copper press fittings are also advantageous because they can be installed flame-free. This eliminates flames, solder, flux, gas tanks, fumes, and noxious gases, as well as the need for a hot work permit, fire watch, and fire extinguishers. As a result, the job site is safer because piping systems can be installed in occupied spaces with no risk of a fire hazard.

22. Three manufacturers account for over 90% of the copper press fittings sold in the United States: Viega, NIBCO, and Elkhart Products Corporation (“EPC”).

23. Viega introduced its copper press fittings to North America in 1999. They are sold under the brand name ProPress® and are available in multiple configurations from ½” to 4” diameter.

24. According to its marketing materials, Viega’s copper press fittings are manufactured with the patented Viega Smart Connect® feature, which helps to identify connections that need to be pressed by allowing an unpressed fitting to leak during pressure testing.

25. Viega has been and continues to have the highest market share of copper press fittings sold in the United States. In 2016, Viega’s net sales were approximately \$115,000,000, which is approximately 71% of the U.S. copper press fittings market.

26. NIBCO, Viega’s most significant competitor in the market for copper press fittings, has products manufactured in Stuarts Draft, Virginia. They are sold under the brand name Press System® and are available in multiple configurations from ½” to 4” diameter.

27. NIBCO is Viega’s most significant competitor in the market for copper press fittings. In 2016, it had approximately 17% of the U.S. copper press fittings market, by net sales.

28. On average, NIBCO’s prices for copper press fittings are lower than Viega’s prices for copper press fittings – sometimes as much as 15% lower.

29. EPC introduced its copper press fittings in 2011. They are sold under the brand name APOLLOPRESS® and are available in multiple configurations from ½” to 4” diameter. According to its marketing materials, EPC’s copper press fittings feature pre-lubricated seals and “Leak Before Press” technology.

30. In 2016, EPC had approximately 5% of the U.S. copper press fittings market, by net sales.

B. Carbon Steel Press Fittings

31. Black iron pipe is a form of steel pipe that is less expensive and more malleable than other iron or steel pipes. It has a black oxide scale on its surface, providing its name.

32. Due to its strength, black iron pipe is ideal for transporting gas or propane in rural and urban areas, and for delivering high pressure steam and air. The oil and petroleum industries use black iron pipe for moving large quantities of oil through remote areas. Other uses for black iron pipe include gas distribution inside and outside homes, water wells, sewage systems, and fire protection systems.

33. Carbon steel press fittings, the press fittings for black iron pipe, rely on hydraulic power tools and jaws to press or crimp a joint to create a permanent seal between the fitting and pipe. The joints rely on the sealing capability of a special fitting that contains a sealing element.

34. Viega represents in its marketing materials that carbon steel press fittings allow plumbers to complete projects with less time, budget, and manpower. Viega also represents that carbon steel press fittings offer the advantage of flame-free installations, which eliminates the risk of a fire hazard.

35. Viega was the first manufacturer to market a carbon steel, cold mechanical press system approved in the United States. Its carbon steel press fittings are sold under the brand names MegaPress® and MegaPress G®, and are available in configurations from ½” to 2” diameter. Viega’s marketing material indicates that its carbon steel press fittings are designed exclusively for connection to, and installation of black iron piping.

36. According to Viega's marketing materials, the MegaPress® is approved for use in hydronic heating, compressed air, fire sprinkler, and cooling water applications. Its carbon steel press fittings have Viega's patented Viega Smart Connect® feature. They also include an EPDM sealing element, a 304 stainless steel separator ring, and a 420 stainless steel grip ring. The EPDM sealing element is approved for use in heating, cooling, and industrial systems ranging from fire protection and compressed air to chilled water.

37. According to Viega's marketing material, the MegaPress G® is approved for use in fuel oil and fuel gas installations. Its carbon steel press fittings have Viega's patented Viega Smart Connect® feature. They also include an HNBR sealing element, a 304 stainless steel separator ring, and a 420 stainless steel grip ring. The HNBR sealing element is approved for use in fuel, oil, lubricants and gasses ranging from diesel fuel and propane to natural gas.

38. Viega's MegaPress® and MegaPress G® were the only carbon steel press fittings approved in the United States until July 2017. As a result, Viega controls at least 95% of the carbon steel press fittings market.

C. Product Distribution

39. Demand for copper press fittings and carbon steel press fittings typically begins with an end user creating a project design that includes specifications for piping and other components to be used for the project. Engineers are usually responsible for drafting fittings specifications, which are often mandated by municipal code or by state or federal law.

40. The project specifications are used to solicit bids from contractors. Once the contractors receive the specifications, they will solicit bids and other assistance from wholesale distributors that can supply various products for that project.

41. Wholesale distributors employ sales personnel dedicated to servicing the needs of contractors and can generally satisfy the needs of contractors with pre-existing inventory.

42. Contractors rely on wholesale distributors because: (a) distributors offer a full spectrum of plumbing products; (b) distributors provide a single point of contact for all products; (c) distributors find alternate supply sources when needed; and (d) distributors have relationships with manufacturers and specification knowledge.

43. Contractors typically select wholesale distributors based on price, service, and convenience.

44. The wholesale distributor will supply the contractor either from its inventory or via a direct purchase order from the wholesale distributor to a fittings manufacturer who will deliver the product to the project site.

45. Fittings manufacturers rely on wholesale distributors because: (a) distributors offer better sales coverage than the manufacturer would have with its own sales force alone; (b) distributors have more influence on and more knowledge of projects; (c) distributors free up a manufacturer's working capital by carrying inventory; (d) distributors offer one - stop shopping for the end user or its contractor; (e) distributors aggregate small orders from and shipments to contractors; (f) distributors help manufacturers get their products in specifications; and (g) distributors manage credit requests and absorb the risk of non - payment from contractors.

46. In a free and competitive market, wholesale distributors may carry the product lines of multiple fittings manufacturers, which are selected by wholesale distributors based on customer demand, product quality, price, and historical relationships.

V. TRADE AND COMMERCE

47. Viega has sold and continues to sell copper press fittings and carbon steel press fittings in the United States in a continuous and uninterrupted flow of interstate commerce, including through and into this judicial district. Every year it sells approximately \$115 million in copper press fittings in United States interstate commerce.

48. Viega's business activities were intended to, and have had a substantial effect on interstate trade and commerce in the United States, including in this judicial district. For instance, if not for Viega's anticompetitive conduct, Viega's primary competitor in the relevant market for sale of copper press fittings, NIBCO, would have had a substantially greater market share in the relevant market for copper press fittings given the range and quality of its products.

VI. RELEVANT MARKET

A. Relevant Product Markets

49. There are two relevant product markets in this instance: the market for copper press fittings and the market for carbon steel press fittings.

50. The markets for copper press fittings and carbon steel press fittings are distinct product markets because they are distinguishable in the eyes of fittings manufacturers, wholesale distributors and end users for use with specific piping products. Copper press fittings are designed to be used with copper piping and carbon steel press fittings are designed to be used with black iron piping. Furthermore, the demand and pricing for copper press fittings and carbon steel press fittings are distinct. For example, NIBCO does not track the price of carbon steel press fittings when setting the price of its copper press fittings.

51. Copper press fittings are not reasonably interchangeable with any other product and do not have cross-elastic demand with any other product. Copper press fittings are the only type of press fittings that can be used to join copper piping.

52. Carbon steel press fittings are not reasonably interchangeable with any other product and do not have cross-elastic demand with any other product. Carbon steel press fittings are the only type of press fittings that can be used to join black iron piping.

B. Relevant Geographic Markets

53. The United States is the relevant geographic market for both products.

54. Manufacturers of copper press fittings ship their products nationally from multiple locations to wholesale distributors located across the United States.

55. Manufacturers of carbon steel press fittings ship their products nationally from multiple locations to wholesale distributors located across the United States.

C. Barriers to Entry

56. There are significant barriers to entry in both relevant markets that allow Viega to protect and maintain its market power. These include both technological and regulatory barriers. Effective entry in to the relevant markets would require developing expertise in design engineering, obtaining certifications and approvals, securing placement on engineers' approval lists, and securing placement in specifications, which are often mandated by municipal code or by state or federal law.

57. Additionally, the level of capital investment is significant. An entrant would need to build its own foundry or develop a supply chain of foundries to produce fittings, develop or purchase hundreds of patterns or moldings necessary to make a full line of fittings, and establish relationships with end users, contractors, and wholesale distributors based on a reputation for quality and service.

58. Further, Viega's anticompetitive conduct has heightened these barriers to entry in the relevant market for copper press fittings by creating barriers to entry or expansion by Viega's competitors.

VII. VIEGA'S MARKET POWER

59. Viega has substantial market power in both relevant markets.

60. Viega has a monopoly in the market for carbon steel press fittings. Its carbon steel press fittings were the first to market and, until July 2017, the only carbon steel press fittings approved in the United States. Viega controls at least 95% of the carbon steel press fittings market.

61. Viega also possesses substantial market power in the market for copper press fittings. In 2016, it controlled approximately 71% of the copper press fittings market.

VIII. VIEGA'S ANTICOMPETITIVE CONDUCT

62. To maintain its dominant position in the market for copper press fittings, Viega uses its monopoly power in the carbon steel press fittings market to coerce customers not to purchase copper press fittings from its competitors.

63. Among other things, Viega has unlawfully tied the sale of carbon steel press fittings to the sale of its copper press fittings. Viega has required customers who want to purchase Viega's carbon steel press fittings to also purchase copper press fittings from Viega and not to purchase or stock copper press fittings from its competitors.

64. In other instances, Viega has charged a pricing penalty in the form of premium prices or lost multiplier discounts for its carbon steel press fittings if the customer purchases copper press fittings from a competitor. This pricing penalty forces customers to purchase Viega's copper press fittings because the combined purchase becomes the only economically viable option available to the customer.

65. Viega's conduct has denied competitors free access to the market for copper press fittings, not because Viega has a better product or lower price, but because of its power in the market for carbon steel press fittings. Wholesale distributors and end users are forced to forego their free choice, pay higher prices, and pass on the inflated price levels to their customers. Customers – plumbers, contractors, and other end users of copper press fittings – are also denied of freedom of choice.

66. Viega's anticompetitive conduct directly targets NIBCO, which is Viega's most significant competitor in the market for copper press fittings. When Viega representatives have threatened customers, they have explicitly stated that the customer must not purchase copper press fittings from NIBCO.

67. As a result of Viega's anticompetitive conduct, Viega's competitors have lost existing and potential distributors for their copper press fittings, including, but not limited to, R.F. Fager Company, Weinstein Supply Company, Moore Supply Company, Mid-City Supply Co., Inc., American Pipe & Supply Company, Charles D. Sheehy, Inc., Peabody Supply Company, and Western Nevada Supply.

A. R.F. Fager Company

68. R.F. Fager ("Fager") is a wholesale distributor selling in part plumbing, heating, and cooling products from five locations in central Pennsylvania.

69. Viega has refused to sell to Fager its carbon steel press fittings if Fager continued to sell copper press fittings manufactured by NIBCO.

70. Viega's conduct has suppressed competition for copper press fittings and allowed Viega to impose anticompetitive charges on end-users.

B. Weinstein Supply Company

71. Weinstein Supply Company (“Weinstein”) is a wholesale distributor selling plumbing, heating and air conditioning products throughout the Northeast of the United States. Weinstein is a division of Hajoca Corporation, which is a wholesale distributor of plumbing, heating, and industrial supplies.

72. In 2015, Weinstein’s branch in Lansdowne, Pennsylvania converted from Viega to NIBCO’s copper press fittings. Thereafter, one of Weinstein’s customers required carbon steel press fittings for multiple projects. To satisfy the customer’s request, Weinstein approached Viega to purchase its carbon steel press fittings. In response, Viega informed Weinstein’s purchasing manager that its carbon steel press fittings were available only if Weinstein switched back to Viega’s copper press fittings. Weinstein had no choice but to switch back to Viega’s copper press fittings and stop selling NIBCO’s copper press fittings.

73. Viega’s conduct has suppressed competition for copper press fittings and allowed Viega to impose anticompetitive charges on end-users.

C. Moore Supply Company

74. Moore Supply Company (“Moore Supply”) is a wholesale distributor of plumbing products, pipe valves, and fittings for residential, commercial, and industrial construction. It has locations throughout Texas. It is a sister company to Hajoca Corporation.

75. In 2016, several branches of Moore Supply decided to convert to NIBCO copper press fittings. After some branches purchased copper press fittings from NIBCO, Viega threatened to pull its carbon steel press fittings from those branches. As a result, Moore Supply reversed its decision to purchase copper press fittings from NIBCO.

76. Multiple branch managers informed NIBCO that Moore Supply had no choice but to purchase from Viega because of the possibility of losing Viega’s carbon steel press fittings.

77. Another incident involving Moore Supply occurred in the Dallas-Fort Worth area, where two Moore Supply branches purchased carbon steel press fittings and copper press fittings from Viega, and three different branches purchased copper press fittings from NIBCO. The branches supporting NIBCO's copper press fittings would purchase Viega's carbon steel press fittings from its sister branches.

78. In response, Viega threatened to pull its carbon steel press fittings unless all of the branches (including those already purchasing from NIBCO) also purchased copper press fittings from Viega. As a result, Moore Supply stopped ordering copper press fittings from NIBCO.

79. Viega's conduct has suppressed competition for copper press fittings and allowed Viega to impose anticompetitive charges on end-users.

D. Mid-City Supply Co., Inc.

80. Mid-City Supply Co., Inc. ("Mid-City") is a family-owned wholesale distributor that sells plumbing, HVAC, refrigeration, pipes, valves and fittings ("PVF"), and industrial products. Mid-City's central distribution center is located in Elkhart, Indiana. It also has branch offices in parts of Indiana and Michigan.

81. Mid-City purchased copper press fittings from NIBCO until 2015. Mid-City converted to Viega's copper press fittings because Viega would not sell its carbon steel press fittings unless Mid-City agreed to drop NIBCO's copper press fittings from its inventory. Although Mid-City wanted to continue purchasing copper press fitting from NIBCO, it switched because of Viega's threat to withhold its carbon steel press fittings.

82. Viega's conduct has suppressed competition for copper press fittings and allowed Viega to impose anticompetitive charges on end-users.

E. American Pipe & Supply Company

83. American Pipe & Supply Company (“American Pipe”) is a wholesale distributor located in Birmingham, Alabama. It sells pipe, valves and fittings, plumbing fixtures, and fire sprinkler materials.

84. In or about 2015, American Pipe stopped purchasing NIBCO’s copper press fittings. Customers were asking American Pipe for carbon steel press fittings and Viega required American Pipe to drop NIBCO’s copper press fittings and buy only Viega’s copper press fittings before American Pipe could purchase carbon steel press fittings from Viega.

85. Viega’s conduct has suppressed competition for copper press fittings and allowed Viega to impose anticompetitive charges on end-users.

F. Charles D. Sheehy, Inc.

86. Charles D. Sheehy, Inc. (“Sheehy, Inc.”) is an independent wholesale distributor located in Avon, Massachusetts. It sells pipe, valves, fittings and mechanical equipment to the mechanical contracting industry of New England.

87. In or about 2015, Viega shutdown one of its plants because of a fire. As a result, Sheehy, Inc. started purchasing copper press fittings from NIBCO. Approximately six months later, one of Sheehy, Inc.’s customers required carbon steel press fittings for a project. As a result, Sheehy, Inc. asked Viega about the availability of its carbon steel press fittings.

88. In response, Viega told Sheehy, Inc. that it had to drop NIBCO’s copper press fittings to purchase Viega’s carbon steel press fittings. Although Sheehy, Inc. wanted to continue purchasing NIBCO’s copper press fittings, it had no choice but to drop NIBCO to access the carbon steel press fittings for its customer.

89. Viega’s conduct has suppressed competition for copper press fittings and allowed Viega to impose anticompetitive charges on end-users.

G. Peabody Supply Company

90. Peabody Supply Company (“Peabody”) is a wholesale distributor of plumbing products, pipe valves, and fittings. It has locations throughout Massachusetts. It is a division of the Hajoca Corporation.

91. Approximately six months ago, a Viega representative walked into one of Peabody’s branch locations and conducted an inventory check. The purpose of the inventory check was to monitor the products being carried by Peabody.

92. During the encounter, the Viega representative told Peabody personnel that Viega would pull its carbon steel press fittings line from all of Peabody’s branches if any of them stocked NIBCO’s copper press fittings. As a result, Peabody had no choice but to stop purchasing copper press fittings from NIBCO.

93. Viega’s conduct has suppressed competition for copper press fittings and allowed Viega to impose anticompetitive charges on end-users.

H. Western Nevada Supply

94. Western Nevada Supply (“WNS”) is a wholesale distributor that offers a diverse line of products including plumbing, water works, HVAC, PVF, Irrigation, and Hydronics & Solar. It has locations in Nevada and California.

95. Approximately two years ago, WNS stocked NIBCO copper press fittings. Viega required WNS to drop NIBCO’s copper press fittings and buy only Viega’s copper press fittings before WNS could purchase carbon steel press fittings from Viega. As a result, WNS was forced to stop purchasing copper press fittings from NIBCO so that it could obtain Viega’s carbon steel press fittings.

96. Viega’s conduct has suppressed competition for copper press fittings and allowed Viega to impose anticompetitive charges on end-users.

IX. INJURY TO COMPETITION

97. Viega's anticompetitive practices, including tying, have restrained trade, and have preserved and entrenched Viega's market power. Viega's conduct has injured competition in the market for copper press fittings and has caused injury to wholesalers and end users in the form of above-competitive pricing.

98. There are no legitimate business or pro-competitive justifications for Viega's conduct and any purported legitimate business justifications are mere pretexts. There is no legitimate business reason to prevent copper press fittings and carbon steel press fittings from being sold separately. Even if such a justification existed, any purported pro-competitive benefits can be achieved through alternative means less restrictive of competition.

99. Viega's unlawful conduct and resulting injury to competition will continue unless injunctive and equitable relief is granted.

X. FEDERAL INJUNCTIVE CLASS

100. The injunctive claims under the Sherman and Clayton Acts are brought on behalf of a class of indirect purchasers of Viega copper press fittings ("Federal Injunctive Class") under Fed. R. Civ. P. 23(a) and 23(b)(2) encompassing:

All United States indirect purchasers of copper press fittings manufactured by Viega LLC sold through Viega's wholesale distributors from January 29, 2015 through the present ("Class Period").

A. Rule 23(a) Prerequisites

101. Prosecution of the claims of the Federal Injunctive Class as a class action is appropriate because the prerequisites of Rule 23(a) of the Federal Rules of Civil Procedures are met:

(a) The number of persons in the Federal Injunctive Class is in the thousands, and the members of the Class are therefore so numerous that joinder of all members of the Class is impracticable. Joinder also is impracticable because of the geographic diversity of the members of the Class, the need to expedite judicial relief, and Plaintiffs' lack of knowledge of the identity and addresses of all members of the Class.

(b) There are numerous questions of law and fact arising from Viega's restraint of trade which are common to the members of the Federal Injunctive Class. These include, but are not limited to, common issues as to (1) whether the Defendant has engaged in a tying, restraint of trade or monopolization; and (2) whether this conduct, taken as a whole, has materially caused continuing and threatened antitrust price injury to be inflicted on indirect purchasers in the Class, as well as denial of free competitive choice.

102. Plaintiffs purchased copper press fittings at artificially inflated prices as a result of Viega's anticompetitive conduct. Plaintiffs' interests are coincident with and not antagonistic to those of the other members of the Federal Injunctive Class. Plaintiffs are members of the Federal Injunctive Class, have claims that are typical of the claims of the Class members, and will fairly and adequately protect the interests of the Class. Plaintiffs and the members of the Class are similarly or identically harmed by the same systematic and pervasive concerted action. In addition, Plaintiffs are represented by counsel who are competent and experienced in the prosecution of antitrust and class action litigation.

B. Rule 23(b)(2) Prerequisites

103. The prosecution of the claims of the Federal Injunctive Class as a class action pursuant to Rule 23(b)(2) is appropriate because Defendant has acted, or refused to act, on grounds generally applicable to the Class, thereby making appropriate final injunctive relief, or corresponding declaratory relief, for the Class as a whole.

XI. STATE DAMAGES CLASSES

104. Pursuant to this Court’s supplemental jurisdiction, Plaintiffs and the proposed Classes also seek damages under state antitrust statutes in 23 states and the District of Columbia, which accord damage remedies to indirect purchasers of Viega copper press fittings suffering passed-on antitrust price injury due to Viega’s unlawful conduct (“Indirect Purchaser Jurisdictions”).

105. These claims are prosecuted by Classes of indirect purchasers of Viega copper press fittings (“State Damages Classes”) under Fed. R. Civ. P. 23(a) and 23(b)(3) encompassing:

All indirect purchasers of copper press fittings manufactured by Viega LLC and sold through its wholesale distributors located in the State Indirect Purchaser Jurisdictions from January 29, 2015 through the present (“Class Period”). The classes are organized according to the Indirect-Purchaser Jurisdictions specified below.

A. Rule 23(a) Prerequisites

106. Prosecution of the claims of each State Damages Class as a class action is appropriate because the prerequisites of Rule 23(a) of the Federal Rules of Civil Procedures are met:

(a) The number of persons in each State Damages Class is in the thousands, and the members of each Class are therefore so numerous that joinder of all members of each Class is impracticable. Joinder also is impracticable because of the geographic diversity of the members of each Class, the need to expedite judicial relief, and the Plaintiffs’ lack of knowledge of the identity and addresses of all members of each Class.

(b) There are numerous questions of law and fact arising from Viega’s restraint of trade which are common to the members of each State Damages Class. These include, but are not limited to, common issues as to (1) whether the Defendant has engaged in a

tying, restraint of trade or monopolization; and (2) whether this conduct, taken as a whole, has materially caused continuing and threatened antitrust price injury to be inflicted on indirect purchasers in each Class, as well as denial of free competitive choice.

107. The claims of the Plaintiffs are typical of the claims of the members of each State Damages Class and fairly encompass the claims of the members of each Class. Plaintiffs and the members of each Class are similarly or identically harmed by the same systematic and pervasive concerted action.

108. Plaintiffs and their counsel will fairly and adequately protect the interests of the members of each State Damages Class. There are no material conflicts between the claims of the Plaintiffs and the members of each Class that would make class certification inappropriate. Counsel for each Class will vigorously assert the claims of the Plaintiffs and the other members of the Class.

B. Rule 23(b)(3) Prerequisites

109. In addition, the prosecution of the claims of each State Damages Class as a class action pursuant to Rule 23(b)(3) is appropriate because:

(a) Questions of law or fact common to the members of each State Damages Class predominate over any questions affecting only its individual members; and

(b) A class action is superior to other methods for the fair and efficient resolution of the controversy.

FEDERAL INJUNCTIVE CLAIMS

COUNT I

(Tying - Sherman Act § 1 and Clayton Act § 3)

110. The allegations in paragraphs 1-109 are incorporated as if fully stated herein.

111. Viega has engaged in an unlawful tying scheme in unreasonable restraint of trade and commerce in violation of Section 1 of the Sherman Act, 15 U.S.C. § 1, and Section 3 of the Clayton Act, 15 U.S.C. § 14.

112. Viega has tied the sale of its carbon steel press fittings (the tying product) to the purchase of its copper press fittings (the tied product) by (a) withholding its carbon steel press fittings altogether unless the wholesale distributor agrees to purchase Viega's copper press fittings, or (b) requiring wholesale distributors to pay higher prices for carbon steel press fittings if they purchase copper press fittings from anyone other than Viega, thus making a tied purchase the only viable option.

113. Copper press fittings and carbon steel press fittings are separate and distinct products that are used for different applications and are not functionally interchangeable. The product characteristics, uses, and character of copper press fittings – which are used with copper pipes for potable, hot, chilled and process water applications for plumbing and HVAC systems – are different from the product characteristics, uses and the character of demand for carbon steel press fittings – which may be used with black iron pipes for fuel oil and fuel gas installations.

114. At all times relevant to this action, Viega had market power in the market for the sale of carbon steel press fittings in the United States. Viega controls at least 95% of the carbon steel press fittings market. Moreover, there are high barriers to entry in the market for carbon steel press fittings, including both technological and regulatory barriers.

115. Viega uses its market power in the carbon steel press fittings market to coerce wholesale distributors to purchase Viega's copper press fittings at above-competitive prices, and as a result these higher prices are then passed onto end users.

116. Viega's conduct has stifled competition on the merits in the copper press fittings market.

117. The amount of interstate commerce affected by Viega's tying scheme is not insubstantial. In 2016, Viega's net sales of copper press fittings in the United States were approximately \$115,000,000.

118. Viega's conduct in conditioning the sale of its carbon steel press fittings on the purchase of its copper press fittings constitutes an illegal tying agreement and is a *per se* violation of Section 1 of the Sherman Act (15 U.S.C. § 1) and Section 3 of the Clayton Act (15 U.S.C. § 14) or, in the alternative, is unlawful under the rule of reason, in that any purported pro-competitive justification for the tie is substantially outweighed by the anticompetitive effects in the copper press fittings market.

119. There are no legitimate business or pro-competitive justifications for Viega's conduct and any purported legitimate business justifications are mere pretexts. Even if such a justification existed, any purported pro-competitive benefits can be achieved through alternative means less restrictive of competition.

120. If not enjoined, Viega will continue to engage in anticompetitive conduct that will further injure end users and competition.

121. As a substantial, proximate and immediate result of Viega's anticompetitive and unlawful actions, Plaintiffs and members of the proposed Federal Indirect-Purchaser Injunctive Class have been injured in their business or property, and continue to be threatened by such harm.

122. Plaintiffs and members of the proposed Federal Indirect-Purchaser Injunctive Class seek an injunction prohibiting the Defendant's anticompetitive practices pursuant to Clayton Act § 16, 15 U.S.C. § 26.

COUNT II
(Restraint of Trade - Sherman Act § 1)

123. The allegations in paragraphs 1-122 are incorporated as if fully stated herein.

124. At all times relevant to this action, Viega had market power in the market for the sale of copper press fittings in the United States. Viega controls approximately 71% of the copper press fittings market in the United States. Moreover, there are high barriers to entry in the market for copper press fittings, including both technological and regulatory barriers.

125. Viega has forced wholesale distributors into agreements that prohibit them from purchasing copper press fittings from its competitors if they also want to purchase Viega's carbon steel press fittings.

126. Viega's conduct constitutes an unlawful contract in restraint of trade or commerce in violation of Section 1 of the Sherman Act.

127. The purpose and effect of the agreements was to diminish, eliminate, and exclude competition.

128. Through its unlawful contracts, Viega has unlawfully injured competition by forcing wholesale distributors to pay above-competitive pricing and forcing end users to absorb the increased costs, and depriving end users and wholesale distributors of the freedom of choice.

129. There are no legitimate business or pro-competitive justifications for Viega's conduct and any purported legitimate business justifications are mere pretexts. Even if such a justification existed, any purported pro-competitive benefits can be achieved through alternative means less restrictive of competition.

130. If not enjoined, Viega will continue to engage in anticompetitive conduct that threatens competitive injury to the business of property of members in the proposed Federal Indirect-Purchaser Injunctive Class.

131. Plaintiffs and members of the proposed Federal Indirect-Purchaser Injunctive Class seek an injunction prohibiting the Defendant's anticompetitive practices.

COUNT III
(Monopolization - Sherman Act § 2)

132. The allegations in paragraphs 1-131 are incorporated as if fully stated herein.

133. At all times relevant to this action, Viega had monopoly power in the market for the sale of copper press fittings in the United States. Viega controls approximately 71% of the copper press fittings market in the United States. Moreover, there are high barriers to entry in the market for copper press fittings, including both technological and regulatory barriers.

134. Viega has engaged in exclusionary conduct designed to prevent competition on the merits in the relevant market for copper press fittings, and thereby maintains and enhances its monopoly position in that market.

135. Viega's anticompetitive conduct has decreased price competition in the copper press fittings market, deprived consumers of free choice, and imposed antitrust price injury on wholesale distributors and end user customers.

136. There are no legitimate business or pro-competitive justifications for Viega's conduct and any purported legitimate business justifications are mere pretexts. Even if such a justification existed, any purported pro-competitive benefits can be achieved through alternative means less restrictive of competition.

137. If not enjoined, Viega will continue to engage in anticompetitive conduct that will further injure wholesalers, end users, and competition.

STATE DAMAGES CLAIMS

COUNT IV

(Alabama Code §§ 6-5-60 et seq.)

(On Behalf of the Alabama Class)

138. The allegations in paragraphs 1-137 are incorporated as if fully stated herein.

139. By reason of the conduct alleged herein, Defendant has violated Alabama Code §§ 6-5-60 et seq.

140. Title 6 of the Alabama Code regulates civil practice. Chapter 5 Article 5 thereof generally prohibits unlawful trusts, combines, or monopolies. Alabama Code §§ 6-5-60 et seq.

141. Alabama Class members purchased copper press fittings within the State of Alabama during the Class Period. But for Defendant's conduct set forth herein, the price of copper press fittings would have been lower.

142. Under Alabama law, indirect purchasers have standing to maintain an action under the antitrust provisions of the Alabama Code based on the facts alleged in this Complaint. Alabama Code §§ 6-5-60 et seq.

143. Defendant combined, contracted, understood and agreed in the market for copper press fittings in an unlawful manner, with the effect of restraining trade, increasing the price of copper press fittings and hindering competition in the sale of copper press fittings, in violation of Alabama Code §§ 6-5-60 et seq.

144. Defendant monopolized or attempted to monopolize the production, control or sale of copper press fittings, in violation of Alabama Code §§ 6-5-60 et seq.

145. Defendant's copper press fittings sold in stores throughout the State of Alabama. During the Class Period, Defendant's illegal conduct substantially affected Alabama commerce.

146. Members of the Alabama Class were injured and are threatened with injury with respect to purchases of copper press fittings in Alabama in that they paid and will pay supra-

competitive prices for copper press fittings due to Defendant's unlawful conduct, and are entitled to all forms of relief available under Alabama Code §§ 6-5-60 et seq.

COUNT V
(Arizona Rev. Stat. §§ 44-1401 et seq.)
(On Behalf of the Arizona Class)

147. The allegations in paragraphs 1-146 are incorporated as if fully stated herein.

148. By reason of the conduct alleged herein, Defendant has violated Arizona Rev. Stat. § 44-1401, et seq.

149. Arizona Class members purchased copper press fittings within the State of Arizona during the Class Period. But for Defendant's conduct set forth herein, the price of copper press fittings would have been lower.

150. Defendant entered into a contract, combination, or conspiracy between two or more persons in restraint of, or to monopolize, trade or commerce in the copper press fittings market, a substantial part of which occurred within Arizona.

151. Defendant established, maintained, or used a monopoly, or attempted to establish a monopoly, of trade or commerce in the copper press fittings market, a substantial part of which occurred within Arizona, for the purpose of excluding competition or controlling, fixing, or maintaining prices in the copper press fittings market.

152. Defendant's violations of Arizona law were flagrant.

153. Defendant's unlawful conduct substantially affected Arizona's trade and commerce.

154. As a direct and proximate result of Defendant's unlawful conduct, members of the Arizona Class have been injured in their business or property and are threatened with further

injury in that they paid and will pay supra-competitive prices for copper press fittings due to Defendant's unlawful conduct.

155. By reason of the foregoing, members of the Arizona Class are entitled to seek all forms of relief available under Arizona Revised Stat. § 44-1401, et seq.

COUNT VI
(California Business and Professions Code §§ 16720, 16750)
(On Behalf of the California Class)

156. The allegations in paragraphs 1-155 are incorporated as if fully stated herein.

157. By reason of the conduct alleged herein, Defendant has violated California Bus. & Prof. Code §§ 16700, *et seq.* and California's Unfair Competition Law, Cal. Bus. & Prof. Code §§ 17200, et seq.

158. California Class members purchased copper press fittings within the State of California during the Class Period. But for Defendant's conduct set forth herein, the price of copper press fittings would have been lower.

159. Defendant entered into and engaged in a continuing unlawful trust in restraint of the trade and commerce as alleged herein in violation of California Bus. & Prof. Code §§ 16700, 16720, *et seq.* In order to maintain the price of copper press fittings at supra-competitive levels at the California Class's expense, Defendant has combined and conspired to restrain and exclude competition in the Relevant Market.

160. Defendant's anticompetitive conduct was knowing and willful and constitutes a flagrant violation of Section §§ 16700, et seq.

161. Defendant's exclusionary agreements with wholesalers prohibit or restrain end users from purchasing competitor products.

162. There is no pro-competitive justification for this anticompetitive conduct that outweighs its anticompetitive effects. Any possible pro-competitive benefits for such conduct could have been obtained by less restrictive alternatives.

163. Defendant's anticompetitive conduct injured, and continues to injure members of the California Class in their business or property in that they paid and will pay supra-competitive prices for copper press fittings due to Defendant's anticompetitive conduct.

164. Injury to members of the California Class was a direct, foreseeable, and proximate result of Defendant's anticompetitive conduct.

165. As a result of Defendant's violation of Section 16700, *et seq.*, the California Class seeks treble damages and the costs of suit, including reasonable attorneys' fees, pursuant to Section 16750(a).

COUNT VII
(District of Columbia Code Ann. §§ 28-4501 et seq.)
(On Behalf of the District of Columbia Class)

166. The allegations in paragraphs 1-165 are incorporated as if fully stated herein.

167. The policy of District of Columbia Code, Title 28, Chapter 45 (Restraints of Trade) is to "promote the unhampered freedom of commerce and industry throughout the District of Columbia by prohibiting restraints of trade and monopolistic practices."

168. District of Columbia Class members purchased copper press fittings within the District of Columbia during the Class Period. But for Defendant's conduct set forth herein, the price of copper press fittings would have been lower.

169. Under District of Columbia law, indirect purchasers have standing to maintain an action under the antitrust provisions of the District of Columbia Code based on the facts alleged in this Complaint, because "any indirect purchaser in the chain of manufacture, production or

distribution of goods...shall be deemed to be injured within the meaning of this chapter.” D.C. Code 28-4509(a).

170. Defendant contracted, combined or conspired to act in restraint of trade within the District of Columbia, and monopolized or attempted to monopolize the market for copper press fittings within the District of Columbia, in violation of D.C. Code § 28-4501, et seq.

171. Members of the District of Columbia Class were injured and are threatened with further injury with respect to purchases of copper press fittings in the District of Columbia in that they paid and will pay supra-competitive prices for copper press fittings due to Defendant’s unlawful conduct, and are entitled to all forms of relief, including actual damages, treble damages, and interest, reasonable attorneys’ fees and costs.

COUNT VIII
(Iowa Code §§ 553.1 et seq.)
(On Behalf of the Iowa Class)

172. The allegations in paragraphs 1-171 are incorporated as if fully stated herein.

173. The Iowa Competition Law aims to “prohibit[] restraint of economic activity and monopolistic practices.” Iowa Code § 553.2.

174. Iowa Class members purchased copper press fittings within the State of Iowa during the Class Period. But for Defendant’s conduct set forth herein, the price of copper press fittings would have been lower.

175. Defendant contracted, combined or conspired to restrain or monopolize trade in the market for copper press fittings, and attempted to establish or did in fact establish a monopoly, a substantial part of which occurred in Iowa, for the purpose of excluding competition or controlling, fixing or maintaining prices for copper press fittings, in violation of Iowa Code § 553.1, et seq.

176. Defendant's violations of Iowa law were willful or flagrant.

177. Defendant's unlawful conduct substantially affected Iowa's trade and commerce.

178. Members of the Iowa Class were injured and are threatened with further injury with respect to purchases of copper press fittings in Iowa in that they paid and will pay supra-competitive prices for copper press fittings due to Defendant's unlawful conduct, and are entitled to all forms of relief, including actual damages, exemplary damages for willful conduct, reasonable attorneys' fees and costs, and injunctive relief.

COUNT IX
(Kansas Stat. Ann §§ 50-101 et seq.)
(On Behalf of the Kansas Class)

179. The allegations in paragraphs 1-178 are incorporated as if fully stated herein.

180. The Kansas Restraint of Trade Act aims to prohibit practices which, inter alia, "tend to prevent full and free competition in the importation, transportation or sale of articles imported into this state." Kan. Stat. Ann. § 50-112.

181. Kansas Class members purchased copper press fittings within the State of Kansas during the Class Period. But for Defendant's conduct set forth herein, the price of copper press fittings would have been lower.

182. Under the Kansas Restraint of Trade Act, indirect purchasers have standing to maintain an action based on the facts alleged in this Complaint. Kan. Stat. Ann § 50-161(b).

183. Defendant combined capital, skill or acts for the purposes of creating restrictions in trade or commerce of copper press fittings, increasing the price of copper press fittings, preventing competition in the sale of copper press fittings, or binding themselves not to sell copper press fittings, in a manner that established the price of copper press fittings and precluded

free and unrestricted competition among themselves in the sale of copper press fittings, in violation of Kan. Stat. Ann. § 50-101, et seq.

184. Defendant's unlawful conduct substantially affected Kansas's trade and commerce.

185. Members of the Kansas Class were injured and will continue to be injured with respect to purchases of copper press fittings in Kansas in that they paid and will pay supra-competitive prices for copper press fittings due to Defendant's unlawful conduct, and are entitled to all forms of relief, including actual damages, reasonable attorneys' fees and costs, and injunctive relief.

COUNT X
(Michigan Compiled Laws Ann. §§ 445.771 et seq.)
(On Behalf of the Michigan Class)

186. The allegations in paragraphs 1-185 are incorporated as if fully stated herein.

187. The Michigan Antitrust Reform Act aims "to prohibit contracts, combinations, and conspiracies in restraint of trade or commerce...to prohibit monopolies and attempts to monopolize trade or commerce...[and] to provide remedies, fines, and penalties for violations of this act." Mich. Act 274 of 1984.

188. Michigan Class members purchased copper press fittings within the State of Michigan during the Class Period. But for Defendant's conduct set forth herein, the price of copper press fittings would have been lower.

189. Under the Michigan Antitrust Reform Act, indirect purchasers have standing to maintain an action based on the facts alleged in this Complaint. Mich. Comp. Laws. § 452.778(2).

190. Defendant contracted, combined, or conspired, a substantial part of which occurred in Michigan, to restrain or monopolize trade or commerce in the market for copper press fittings, in violation of Mich. Comp. Laws § 445.772, et seq.

191. Defendant's unlawful conduct substantially affected Michigan's trade and commerce.

192. Members of the Michigan Class were injured and are threatened with injury with respect to purchases of copper press fittings in Michigan in that they paid and will pay supra-competitive prices for copper press fittings due to Defendant's unlawful conduct, and are entitled to all forms of relief, including actual damages, treble damages for flagrant violations, interest, costs, reasonable attorneys' fees, and injunctive or other appropriate equitable relief.

COUNT XI
(Minnesota Ann. Stat. §§ 325D.49 et seq.)
(On Behalf of the Minnesota Class)

193. The allegations in paragraphs 1-192 are incorporated as if fully stated herein.

194. The Minnesota Antitrust Law of 1971 aims to prohibit any contract, combination or conspiracy when any part thereof was created, formed, or entered into in Minnesota; any contract, combination or conspiracy, wherever created, formed or entered into; any establishment, maintenance or use of monopoly power; and any attempt to establish, maintain or use monopoly power, whenever any of these affect Minnesota trade or commerce.

195. Minnesota Class members purchased copper press fittings within the State of Minnesota during the Class Period. But for Defendant's conduct set forth herein, the price of copper press fittings would have been lower.

196. Under the Minnesota Antitrust Act of 1971, indirect purchasers have standing to maintain an action based on the facts alleged in this Complaint. Minn. Stat. § 325D.56.

197. Defendant contracted, combined or conspired in unreasonable restraint of trade or commerce in the market for copper press fittings within the intrastate commerce of and outside of Minnesota; established, maintained, used or attempted to establish, maintain or use monopoly power over the trade or commerce in the market for copper press fittings within the intrastate commerce of and outside of Minnesota; and fixed prices and allocated markets for copper press fittings within the intrastate commerce of and outside of Minnesota, in violation of Minn. Stat. § 325D.49, et seq.

198. Defendant's unlawful conduct substantially affected Minnesota's trade and commerce.

199. As a direct and proximate result of Defendant's unlawful conduct, the members of the Minnesota Class have been injured in their business or property and are threatened with further injury in that they paid and will pay supra-competitive prices for copper press fittings due to Defendant's unlawful conduct

200. By reason of the foregoing, the Minnesota Class is entitled to seek all forms of relief available under Minnesota Stat. §§ 325D.49, et seq.

COUNT XII
(Mississippi Code Ann. §§ 75-21-1 et seq.)
(On Behalf of the Mississippi Class)

201. The allegations in paragraphs 1-200 are incorporated as if fully stated herein.

202. Title 75 of the Mississippi Code regulates trade, commerce and investments. Chapter 21 thereof generally prohibits trusts and combines in restraint or hindrance of trade, with the aim that "trusts and combines may be suppressed, and the benefits arising from competition in business [are] preserved" to Mississippians. Miss. Code Ann. § 75-21-39.

203. Mississippi Class members purchased copper press fittings within the State of Mississippi during the Class Period. But for Defendant's conduct set forth herein, the price of copper press fittings would have been lower.

204. Trusts are combinations, contracts, understandings or agreements, express or implied, when inimical to the public welfare and with the effect of, inter alia, restraining trade, increasing the price or output of a commodity, or hindering competition in the production or sale of a commodity. Miss. Code Ann. § 75-21-1.

205. Under Mississippi law, indirect purchasers have standing to maintain an action under the antitrust provisions of the Mississippi Code based on the facts alleged in this Complaint. Miss. Code Ann. § 75-21-9.

206. Defendant combined, contracted, understood and agreed in the market for copper press fittings in a manner inimical to public welfare, with the effect of restraining trade, increasing the price of copper press fittings and hindering competition in the sale of copper press fittings, in violation of Miss. Code Ann. § 75-21-1(a), et seq. 270.

207. Defendant monopolized or attempted to monopolize the production, control or sale of copper press fittings, in violation of Miss. Code Ann. § 75-21-3, et seq.

208. Defendant's copper press fittings sold in stores throughout the State of Mississippi. During the Class Period, Defendant's illegal conduct substantially affected Mississippi commerce.

209. Members of the Mississippi Class were injured and are threatened with injury with respect to purchases of copper press fittings in Mississippi in that they paid and will pay supra-competitive prices for copper press fittings due to Defendant's unlawful conduct, and are entitled to all forms of relief available under Miss. Code Ann. § 75-21-21, et seq.

COUNT XIII
(Nebraska Rev. Stat. §§ 59-801 et seq.)
(On Behalf of the Nebraska Class)

210. The allegations in paragraphs 1-209 are incorporated as if fully stated herein.

211. Chapter 59 of the Nebraska Revised Statute generally governs business and trade practices. Sections 801 through 831 thereof, known as the Junkin Act, prohibit antitrust violations such as restraints of trade and monopolization.

212. Nebraska Class members purchased copper press fittings within the State of Nebraska during the Class Period. But for Defendant's conduct set forth herein, the price of copper press fittings would have been lower.

213. Under Nebraska law, indirect purchasers have standing to maintain an action under the Junkin Act based on the facts alleged in this Complaint. Neb. Rev. Stat. § 59-821.

214. Defendant contracted, combined or conspired in restraint of trade or commerce of copper press fittings within the intrastate commerce of Nebraska, and monopolized or attempted to monopolize the market for copper press fittings within the intrastate commerce of Nebraska by possessing monopoly power in the market and willfully maintaining that power through agreements to fix prices, allocate markets and otherwise control trade, in violation of Neb. Rev. Stat. § 59-801, et seq.

215. Defendant's unlawful conduct substantially affected Nebraska's trade and commerce.

216. Members of the Nebraska Class were injured and will continue to be injured with respect to purchases of copper press fittings in Nebraska in that they paid and will pay supra-competitive prices for copper press fittings due to Defendant's unlawful conduct, and are entitled to all forms of relief, including actual damages or liquidated damages in an amount which bears

a reasonable relation to the actual damages which have been sustained, as well as reasonable attorneys' fees, costs, and injunctive relief.

COUNT XIV
(Nevada Rev. Stat. Ann. §§ 598A.010 et seq.)
(On Behalf of the Nevada Class)

217. The allegations in paragraphs 1-216 are incorporated as if fully stated herein.

218. The Nevada Unfair Trade Practice Act ("NUTPA") states that "free, open and competitive production and sale of commodities...is necessary to the economic well-being of the citizens of the State of Nevada." Nev. Rev. Stat. Ann. § 598A.030(1).

219. Nevada Class members purchased copper press fittings within the State of Nevada during the Class Period. But for Defendant's conduct set forth herein, the price of copper press fittings would have been lower.

220. The policy of NUTPA is to prohibit acts in restraint of trade or commerce, to preserve and protect the free, open and competitive market, and to penalize all persons engaged in anticompetitive practices. Nev. Rev. Stat. Ann. § 598A.030(2). Such acts include, inter alia, price fixing, division of markets, allocation of customers, and monopolization of trade. Nev. Rev. Stat. Ann. § 598A.060.

221. Under Nevada law, indirect purchasers have standing to maintain an action under NUTPA based on the facts alleged in this Complaint. Nev. Rev. Stat. Ann. §598A.210(2).

222. Defendant fixed prices by agreeing to establish prices for copper press fittings in Nevada, divided Nevada markets, allocated Nevada customers, and monopolized or attempted monopolize trade or commerce of copper press fittings within the intrastate commerce of Nevada, constituting a contract, combination or conspiracy in restraint of trade in violation of Nev. Rev. Stat. Ann. § 598A, et seq.

223. Defendant's unlawful conduct substantially affected Nevada's trade and commerce.

224. Members of the Nevada Class were injured and are threatened with injury with respect to purchases of copper press fittings in Nevada in that at least thousands of sales of Defendant's copper press fittings took place in Nevada, purchased by Nevada consumers at supra-competitive prices caused by Defendant's conduct.

225. Accordingly, members of the Nevada Class are entitled to all forms of relief, including actual damages, treble damages, reasonable attorneys' fees, costs, and injunctive relief.

COUNT XV
(New Hampshire Rev. Stat. §§ 356:1 et seq.)
(On Behalf of the New Hampshire Class)

226. The allegations in paragraphs 1-225 are incorporated as if fully stated herein.

227. Title XXXI of the New Hampshire Statutes generally governs trade and commerce. Chapter 356 thereof governs combinations and monopolies and prohibits restraints of trade. N.H. Rev. Stat. Ann. §§ 356:2, 3.

228. New Hampshire Class members purchased copper press fittings within the State of New Hampshire during the Class Period. But for Defendant's conduct set forth herein, the price of copper press fittings would have been lower.

229. Under New Hampshire law, indirect purchasers have standing to maintain an action based on the facts alleged in this Complaint. N.H. Rev. Stat. Ann. § 356:11(II).

230. Defendant fixed, controlled or maintained prices for copper press fittings, allocated customers or markets for copper press fittings, and established, maintained or used monopoly power, or attempted to, constituting a contract, combination or conspiracy in restraint

of trade, a substantial part of which occurred in New Hampshire, in violation of N.H. Rev. Stat. Ann. § 356:1, et seq.

231. Members of the New Hampshire Class were injured and are threatened with injury with respect to purchases of copper press fittings in New Hampshire in that they paid more and will continue to pay more for copper press fittings than they otherwise would in the absence of Defendant's unlawful conduct, and are entitled to all forms of relief, including actual damages sustained, treble damages for willful or flagrant violations, reasonable attorneys' fees, costs, and injunctive relief.

COUNT XVI
(New Mexico Stat. Ann. §§ 57-1-1 et seq.)
(On Behalf of the New Mexico Class)

232. The allegations in paragraphs 1-231 are incorporated as if fully stated herein.

233. The New Mexico Antitrust Act aims to prohibit restraints of trade and monopolistic practices. N.M. Stat. Ann. 57-1-15.

234. New Mexico Class members purchased copper press fittings within the State of New Mexico during the Class Period. But for Defendant's conduct set forth herein, the price of copper press fittings would have been lower.

235. Under New Mexico law, indirect purchasers have standing to maintain an action based on the facts alleged in this Complaint. N.M. Stat. Ann. § 57-1-3.

236. Defendant contracted, agreed, combined or conspired, and monopolized or attempted to monopolize trade for copper press fittings within the intrastate commerce of New Mexico, in violation of N.M. Stat. Ann. § 57-1-1, et seq.

237. Defendant's unlawful conduct substantially affected New Mexico's trade and commerce.

238. Members of the New Mexico Class were injured and will continue to be injured with respect to purchases of copper press fittings in New Mexico in that they paid more and will continue to pay more for copper press fittings than they otherwise would in the absence of Defendant's unlawful conduct, and are entitled to all forms of relief, including actual damages, treble damages, reasonable attorneys' fees, costs, and injunctive relief.

COUNT XVII
(The Donnelly Act, New York General Bus. Law §§ 340 et seq.)
(On Behalf of the New York Class)

239. The allegations in paragraphs 1-238 are incorporated as if fully stated herein.

240. Article 22 of the New York General Business Law general prohibits monopolies and contracts or agreements in restraint of trade, with the policy of encouraging competition or the free exercise of any activity in the conduct of any business, trade or commerce in New York. N.Y. Gen. Bus. Law § 340(1).

241. New York Class members purchased copper press fittings within the State of New York during the Class Period. But for Defendant's conduct set forth herein, the price of copper press fittings would have been lower.

242. Under New York law, indirect purchasers have standing to maintain an action based on the facts alleged in this Complaint. N.Y. Gen. Bus. Law § 340(6).

243. Defendant established or maintained a monopoly within the intrastate commerce of New York for the trade or commerce of copper price fittings and restrained competition in the free exercise of the conduct of the business of copper price fittings within the intrastate commerce of New York, in violation of N.Y. Gen. Bus. Law § 340, et seq.

244. Defendant's unlawful conduct substantially affected New York's trade and commerce.

245. Members of the New York Class were injured and are threatened with further injury with respect to purchases of copper press fittings in New York in that they paid more and will continue to pay more for copper press fittings than they otherwise would in the absence of Defendant's unlawful conduct, and are entitled to all forms of relief, including actual damages, treble damages, costs not exceeding \$10,000, and reasonable attorneys' fees.

COUNT XVIII
(North Carolina General Stat. §§ 75-1 et seq.)
(On Behalf of the North Carolina Class)

246. The allegations in paragraphs 1-245 are incorporated as if fully stated herein.

247. By reason of the conduct alleged herein, Defendant has violated N.C. Gen. Stat. § 75-1.1, et seq.

248. Plaintiff Accurate Backflow and Plumbing Services, Inc. and North Carolina class members purchased copper press fittings within the State of North Carolina during the Class Period. But for Defendant's conduct set forth herein, the price of copper press fittings would have been lower.

249. Defendant entered into a contract or combination in the form of trust or otherwise, or conspiracy in restraint of trade or commerce in the copper press fittings market, a substantial part of which occurred within North Carolina.

250. Defendant established, maintained, or used a monopoly, or attempted to establish a monopoly, of trade or commerce in the copper press fittings market, for the purpose of affecting competition or controlling, fixing, or maintaining prices, a substantial part of which occurred within North Carolina.

251. Defendant's conduct was unfair, unconscionable, or deceptive within the conduct of commerce within the State of North Carolina.

252. Defendant's trade practices are and have been immoral, unethical, unscrupulous, and substantially injurious to consumers.

253. Defendant's conduct misled consumers, withheld material facts, and resulted in material misrepresentations to members of the North Carolina class.

254. Defendant's unlawful conduct substantially affected North Carolina's trade and commerce.

255. As a direct and proximate result of Defendant's unlawful conduct, Plaintiff Accurate Backflow and Plumbing Services, Inc. and members of the North Carolina Class have been injured in their business or property and are threatened with further injury in that they paid more and will continue to pay more for copper press fittings than they otherwise would in the absence of Defendant's unlawful conduct.

256. By reason of the foregoing, members of the North Carolina Class are entitled to seek all forms of relief available, including treble damages, under N.C. Gen. Stat. § 75-1, et seq.

COUNT XIX
(North Dakota Century Code §§ 51-08.1-01 et seq.)
(On Behalf of the North Dakota Class)

257. The allegations in paragraphs 1-256 are incorporated as if fully stated herein.

258. The North Dakota Uniform State Antitrust Act generally prohibits restraints on or monopolization of trade. N.D. Cent. Code § 51-08.1, et seq.

259. North Dakota class members purchased copper press fittings within the State of North Dakota during the Class Period. But for Defendant's conduct set forth herein, the price of copper press fittings would have been lower.

260. Under the North Dakota Uniform State Antitrust Act, indirect purchasers have standing to maintain an action based on the facts alleged in this Complaint. N.D. Cent. Code § 51-08.1-08.

261. Defendant contracted, combined or conspired in restraint of, or to monopolize trade or commerce in the market for copper press fittings, and established, maintained, or used a monopoly, or attempted to do so, a substantial part of which occurred within North Dakota, for the purposes of excluding competition or controlling, fixing or maintaining prices for copper press fittings, in violation of N.D. Cent. Code §§ 51-08.1-02, 03.

262. Defendant's violations of North Dakota law were flagrant.

263. Defendant's unlawful conduct substantially affected North Dakota's trade and commerce.

264. Members of the North Dakota Class were injured and will continue to be injured with respect to purchases in North Dakota in that they paid more and will continue to pay more for copper press fittings than they otherwise would in the absence of Defendant's unlawful conduct, and are entitled to all forms of relief, including actual damages, treble damages for flagrant violations, costs, reasonable attorneys' fees, and injunctive or other equitable relief.

COUNT XX
(Oregon Revised Statutes §§ 646.705 et seq.)
(On Behalf of the Oregon Class)

265. The allegations in paragraphs 1-264 are incorporated as if fully stated herein.

266. Chapter 646 of the Oregon Revised Statutes generally governs business and trade practices within Oregon. Sections 705 through 899 thereof govern antitrust violations, with the policy to "encourage free and open competition in the interest of the general welfare and economy of the state." Or. Rev. Stat. § 646.715.

267. Oregon Class members purchased copper press fittings within the State of Oregon during the Class Period. But for Defendant's conduct set forth herein, the price of copper press fittings would have been lower.

268. Under Oregon law, indirect purchasers have standing under the antitrust provisions of the Oregon Revised Statutes to maintain an action based on the facts alleged in this Complaint. Or. Rev. Stat. § 646.780(1)(a).

269. Defendant contracted, combined, or conspired in restraint of trade or commerce of copper press fittings, and monopolized or attempted to monopolize the trade or commerce of copper press fittings, a substantial part of which occurred within Oregon, in violation of Or. Rev. Stat. § 646.705, et seq.

270. Defendant's unlawful conduct substantially affected Oregon's trade and commerce.

271. Members of the Oregon Class were injured with respect to purchases of copper press fittings within the intrastate commerce of Oregon, or alternatively to interstate commerce involving actual or threatened injury to persons located in Oregon, in that they paid more and will continue to pay more for copper press fittings than they otherwise would in the absence of Defendant's unlawful conduct.

272. Members of the Oregon Class are entitled to all forms of relief, including actual damages, treble damages, reasonable attorneys' fees, expert witness fees and investigative costs, and injunctive relief.

COUNT XXI

**(Rhode Island Antitrust Act, Rhode Island Gen. Law §§ 6-36-1 et seq.)
(On Behalf of the Rhode Island Class)**

273. The allegations in paragraphs 1-272 are incorporated as if fully stated herein.

274. The Rhode Island Antitrust Act aims to promote the unhampered growth of commerce and industry throughout Rhode Island by prohibiting unreasonable restraints of trade and monopolistic practices that hamper, prevent or decrease competition. R.I. Gen. Laws § 6-36-2(a)(2).

275. Rhode Island Class members purchased copper press fittings within the State of Rhode Island during the Class Period. But for Defendant's conduct set forth herein, the price of copper press fittings would have been lower.

276. Under the Rhode Island Antitrust Act, as of July 15, 2013, indirect purchasers have standing to maintain an action based on the facts alleged in this Complaint. R.I. Gen. Laws § 6-36-11(a).

277. Defendant contracted, combined and conspired in restraint of trade of copper press fittings within the intrastate commerce of Rhode Island, and established, maintained or used, or attempted to establish, maintain or use, a monopoly in the trade of copper press fittings for the purpose of excluding competition or controlling, fixing or maintaining prices within the intrastate commerce of Rhode Island, in violation of R.I. Gen. Laws § 6-36-1, et seq.

278. Members of the Rhode Island Class were injured and will continue to be injured with respect to purchases of copper press fittings in Rhode Island in that they paid more and will continue to pay more for copper press fittings than they otherwise would in the absence of Defendant's unlawful conduct, and are entitled to all forms of relief, including actual damages, treble damages, reasonable costs, reasonable attorneys' fees, and injunctive relief.

COUNT XXII
(South Dakota Codified Laws §§ 37-1-3.1 et seq.)
(On Behalf of the South Dakota Class)

279. The allegations in paragraphs 1-278 are incorporated as if fully stated herein.

280. Chapter 37-1 of the South Dakota Codified Laws prohibits restraint of trade, monopolies and discriminatory trade practices. S.D. Codified Laws §§ 37-1- 3.1, 3.2.

281. South Dakota Class members purchased copper press fittings within the State of South Dakota during the Class Period. But for Defendant's conduct set forth herein, the price of copper press fittings would have been lower.

282. Under South Dakota law, indirect purchasers have standing under the antitrust provisions of the South Dakota Codified Laws to maintain an action based on the facts alleged in this Complaint. S.D. Codified Laws § 37-1-33.

283. Defendant contracted, combined or conspired in restraint of trade or commerce of copper press fittings within the intrastate commerce of South Dakota, and monopolized or attempted to monopolize trade or commerce of copper press fittings within the intrastate commerce of South Dakota, in violation of S.D. Codified Laws § 37-1, et seq.

284. Defendant's unlawful conduct substantially affected South Dakota's trade and commerce.

285. Members of the South Dakota Class were injured and will continue to be injured with respect to purchases of copper press fittings in South Dakota in that they paid more and will continue to pay more for copper press fittings than they otherwise would in the absence of Defendant's unlawful conduct, and are entitled to all forms of relief, including actual damages, treble damages, taxable costs, reasonable attorneys' fees, and injunctive or other equitable relief.

COUNT XXIII
(Tennessee Code Ann. §§ 47-25-101 et seq.)
(On Behalf of the Tennessee Class)

286. The allegations in paragraphs 1-285 are incorporated as if fully stated herein.

287. By reason of the conduct alleged herein, Defendant has violated Tennessee Code Ann. §§ 47-25-101, et seq.

288. Tennessee Class members purchased copper press fittings within the State of Tennessee during the Class Period. But for Defendant's conduct set forth herein, the price of copper press fittings would have been lower.

289. Defendant has entered into arrangements, contracts, agreements, trusts, or combinations with persons or corporations designed to, or which tend to, advance or control the price or the cost to end users in the copper press fittings market throughout Tennessee.

290. Defendant's unlawful conduct affects Tennessee commerce to a substantial degree by causing Tennessee consumers to pay inflated prices for copper press fittings and has deprived Tennessee consumers of the ability to choose from high-quality, less expensive alternatives.

291. As a direct and proximate cause of Defendant's unlawful conduct, members of the Tennessee Class have been injured in their business or property and are threatened with further injury in that they paid more and will continue to pay more for copper press fittings than they otherwise would in the absence of Defendant's unlawful conduct.

292. By reason of the foregoing, members of the Tennessee Class are entitled to seek all forms of relief available under Tennessee Code Ann. §§ 47-25-101, et seq.

COUNT XXIV
(Utah Code Ann. §§ 76-10-3101 et seq.)
(On Behalf of the Utah Class)

293. The allegations in paragraphs 1-292 are incorporated as if fully stated herein.

294. The Utah Antitrust Act aims to "encourage free and open competition in the interest of the general welfare and economy of this state by prohibiting monopolistic and unfair

trade practices, combinations and conspiracies in restraint of trade or commerce” Utah Code Ann. § 76-10-3102.

295. Utah Class members purchased copper press fittings within the State of Utah during the Class Period. But for Defendant’s conduct set forth herein, the price of copper press fittings would have been lower.

296. Under the Utah Antitrust Act, indirect purchasers who are either Utah residents or Utah citizens have standing to maintain an action based on the facts alleged in this Complaint. Utah Code Ann. § 76-10-3109(1)(a).

297. Defendant contracted, combined or conspired in restraint of trade or commerce of copper press fittings, and monopolized or attempted to monopolize trade or commerce of copper press fittings, in violation of Utah Code Ann. § 76-10-3101, et seq.

298. Members of the Utah Class who are either Utah residents or Utah citizens were injured and will continue to be injured with respect to purchases of copper press fittings in Utah in that they paid more and will continue to pay more for copper press fittings than they otherwise would in the absence of Defendant’s unlawful conduct, and are entitled to all forms of relief, including actual damages, treble damages, costs of suit, reasonable attorneys’ fees, and injunctive relief.

COUNT XXV
(Vermont Stat. Ann. §§ 2453 et seq.)
(On Behalf of the Vermont Class)

299. The allegations in paragraphs 1-298 are incorporated as if fully stated herein.

300. By reason of the conduct alleged herein, Defendant has violated the Vermont Statutes Annotated.

301. Plaintiff Homestead Heating & Plumbing, LLC and Vermont Class members purchased copper press fittings within the State of Vermont during the Class Period. But for Defendant's conduct set forth herein, the price of copper press fittings would have been lower.

302. Defendant coerced wholesalers into accepting Defendant's copper press fittings.

303. Defendant has and had sufficient economic power in the copper press fittings market to coerce wholesalers' acceptance of Defendant's copper press fittings.

304. Defendant's conduct has and had anticompetitive effects in the copper press fittings market, as supra-competitive prices for copper press fittings are passed on to end users.

305. Defendant's unlawful conduct substantially affected Vermont's trade and commerce.

306. As a direct and proximate result of Defendant's unlawful conduct, Plaintiff Homestead Heating & Plumbing, LLC and members of the Vermont Class have been injured in their business or property and are threatened with further injury in that they paid and will continue to pay more for copper press fittings than they otherwise would in the absence of Defendant's unlawful conduct.

307. By reason of the foregoing, members of the Vermont Class are entitled to seek all forms of relief available under Vermont Stat. Ann. 9 § 2453 et seq.

COUNT XXVI
(West Virginia Code §§ 47-18-1 et seq.)
(On Behalf of the West Virginia Class)

308. The allegations in paragraphs 1-307 are incorporated as if fully stated herein.

309. The violations of federal antitrust law set forth above also constitute violations of section 47-18-1 of the West Virginia Code.

310. West Virginia Class members purchased copper press fittings within the State of West Virginia during the Class Period. But for Defendant's conduct set forth herein, the price of copper press fittings would have been lower.

311. During the Class Period, Defendant engaged in a continuing contract, combination or conspiracy, a substantial part of which occurred in West Virginia, with wholesalers in unreasonable restraint of trade and commerce and other anticompetitive conduct alleged above in violation of W. Va. Code § 47-18-1, et seq.

312. Defendant's anticompetitive acts described above were knowing, willful and constitute violations or flagrant violations of the West Virginia Antitrust Act.

313. Defendant's unlawful conduct substantially affected West Virginia's trade and commerce.

314. As a direct and proximate result of Defendant's unlawful conduct, members of the West Virginia Class have been injured in their business and property in that they paid more for copper press fittings than they otherwise would have paid in the absence of Defendant's unlawful conduct.

315. As a result of Defendant's violation of Section 47-18-3 of the West Virginia Antitrust Act, members of the West Virginia Class seek treble damages and their cost of suit, including reasonable attorneys' fees, pursuant to section 47-18-9 of the West Virginia Code.

COUNT XXVII
(Wisconsin Stat. §§ 133.01 et seq.)
(On Behalf of the Wisconsin Class)

316. The allegations in paragraphs 1-315 are incorporated as if fully stated herein.

317. Chapter 133 of the Wisconsin Statutes governs trust and monopolies, with the intent "to safeguard the public against the creation or perpetuation of monopolies and to foster

and encourage competition by prohibiting unfair and discriminatory business practices which destroy or hamper competition.” Wis. Stat. § 133.01. 355.

318. Wisconsin Class members purchased copper press fittings within the State of Wisconsin during the Class Period. But for Defendant’s conduct set forth herein, the price of copper press fittings would have been lower.

319. Under Wisconsin law, indirect purchasers have standing under the antitrust provisions of the Wisconsin Statutes to maintain an action based on the facts alleged in this Complaint. Wis. Stat. 133.18(a).

320. Defendant contracted, combined or conspired in restraint of trade or commerce of copper press fittings, and monopolized or attempted to monopolize the trade or commerce of copper press fittings, a substantial part of which occurred within Wisconsin, with the intention of injuring or destroying competition therein, in violation of Wis. Stat. § 133.01, et seq.

321. Members of the Wisconsin Class were injured with respect to purchases of copper press fittings in Wisconsin in that the actions alleged herein substantially affected the people of Wisconsin, with consumers in Wisconsin paying substantially higher prices for Defendant’s copper press fittings in Wisconsin.

322. Accordingly, members of the Wisconsin Class are entitled to all forms of relief, including actual damages, treble damages, costs and reasonable attorneys’ fees, and injunctive relief.

PRAYER FOR RELIEF

WHEREFORE, Plaintiffs individually and as members of the proposed Federal Indirect-Purchaser Injunctive Class and the State Classes pray that:

A. This Court find that Defendant's conduct constitutes violations of the Sherman Act, 15 U.S.C. §§ 1, 2 and the Clayton Act, 15 U.S.C. § 14;

B. This Court award injunctive relief to the proposed injunctive Class under Section 16 of the Clayton Act, 15 U.S.C. § 26, and award damage relief to the proposed damage Classes in the Indirect-Purchaser Jurisdictions pursuant to its supplemental jurisdiction;

C. Plaintiffs recover reasonable attorneys' fees and costs as allowed by law;

D. Plaintiffs recover pre-judgment and post-judgment interest at the highest rate allowed by law; and

E. Plaintiffs be granted such other and further relief as the Court deems just and equitable.

JURY DEMAND

Plaintiffs demand a trial by jury.

Dated: May 13, 2019
